Wardrobe
Accessories

Having inclination towards craftsmanship to offer versatile Interior Products for domestic and commercial application, we ventured in to Basket manufacturing and storage solution.

Due to growing influence of Stainless steel in human life due to its hygienic properties, easy to shape and longer life compare to other metals, we decided to design and manufacture diverse range of Stainless Steel Wire Baskets, Sheet Metal Frames and Fittings for rapidly growing demand for quality, high gloss Stainless Steel articles ranging from; Kitchen Baskets, Wardrobe Accessories, Bath Accessories & Other Interior Hardware fittings for domestic and other commercial applications.

With in-depth experience of metal craft and modern manufacturing techniques, it is lucid for us to enter in to highly demanding Interior designer arena at home as well as in international markets.

Basically we design and mass produce some of the highly consuming Baskets with size and versatility for various applications ranging from Kitchen, Bath, Wardrobe and Wine Bar as well as provide manufacturing services for made to customisation of order special products according to given design and specifications in shortest time possible with required accuracy, finishing options at economical & affordable market rates.

We have fully integrated state of the art manufacturing facility with in-house Designing and R&D facility at one of the best Industrial Zone in Gujarat; "Metoda G.I.D.C. in Rajkot". We have more than 43,000 Sq. Feet of well built infrastructure to house raw material, production department, finishing department, surface treatment plant, cleaning & packaging department and inventory set up.

With constant innovation in manufacturing and application enhancement, we are pioneer in this product segment here in India. Our products are manufactured biologically harmless 304-18/8 Stainless Steel as well as from Standard Steel as per customer requirements. All the products are manufactured as per international standards of sizes, finishes and designs.

We believe in quality as a foundation of our commercial success. To achieve highest quality in each and every product standards manufactured, we have prepared highly refined formation dies and welding fixtures for standard shape and flawless fabrication by highly skilled and experienced craftsmen. Each and every product is quality checked to resolve manufacturing defects. Each and every product forwarded for final finishing and chemical treatments are approved by our quality experts to ensure that our customers get best products with cent percent satisfaction. Which made us proudly eligible for our achieved ISO 9001:2008 Certification.

Our strength lies in our years of experience in delicate metal fabrication. As promoters of this firm we are having years of experience in this sector and employed highly skilled human resource to insure T.Q.M.

We assure you of stringent quality standards, superior customer satisfaction, well spread dealer network across the nation, and live wire relations with India's reputed and respected Interior designers for regular product evaluation to address demands of highly choosy and selective class of customers.

With aim to help choose right product with required specifications and finish, here we have prepared this product catalogue, keeping in mind the priorities of end Users as well as the Interior Designers.

Due to contentious new developments on designing and manufacturing front, there may be chances of some design / specifications changes in products we offer. For which our dealers & distributors are regularly updated in order to enhance customer requirements & customised results to par excellence to regularly update our dealer & distributors about these changes to enhance customer comfort.
